Greetings

Hello, I am Sumedh a passionate and skilled frontend developer with expertise in creating responsive, user-centric designs using HTML, CSS, JavaScript, and React.js. Proficient in leveraging frameworks to enhance visual appeal and functionality. For Academic record I am pursuing Masters in Computer Application(MCA).

Skills

- Frontends - HTML, CSS and React.js
- Frameworks/Library - NEXT.js, Express.js(Basic), Node.js, EJS, Shadcn, FastAPI
- Databases - Firebase, MongoDB(Basic)
- Deployment - Netlify
- Languages - Python(Intermediate), Javascript(Intermediate), PHP(Basic CMS queries), C++ (Basic), Java(Basic)
- Tools - VS Code, Figma
- Other - Git, Github, Wordpress Theme Development, UI/UX, MS Excel, PowerPoint, Word/Docs

Experience

UnifiedMentor: 3 Months Fullstack Development Intern (Remote) Jan 2025 – Mar 2025

- Worked on improving front-end skills using React and improved understanding of back-end with Express.js and MongoDB.

Retro India: FullStack Intern (Remote) March 2025 - May 2025

- Integrated Google Login authentication system into their platform and made some enhancements to their user interface.
- Retro India is a startup e-commerce platform that promotes and sells traditional Indian handicrafts and artisan products.

Dituch-Soft: Python Developer (Remote) Jan 2025 - May 2025

- Build on a LinkedIn Scraper for a Client. Using FastAPI for the back end and Notion as a Database

Projects

Tiptap Custom Extension: Link Shortener [Live Link](#)

- Developed a custom extension for Tiptap (a headless rich-text editor) that integrates a link shortener API to automatically convert long URLs into shortened links within the editor.
- Tools Used: JavaScript, Tiptap, and a link-shortening API (Is.gd).

Ticket Manager App (React + Firebase) [Live Link](#)

- Built a ticket management system with role-based authentication.
- Integrated Firebase Authentication and Firestore for user management and data storage.
- Tools Used: React.js, Firebase Authentication, Firestore, Material-UI.

FullStack Blog Website [sumedhx/Blog-Website](#)

- Developed a full-stack blog website for a college project to get basic knowledge of how full-stack app works.
- Tools used: EJS for front-end, Express.js, and MongoDB.
